

Mr. David S. Brandwein

1 D 1617 Hqs.

Report 72-3 of the Scientific Advisory Committee to the
Director, Defense Intelligence Agency -- A Summary of
Findings of the Sensor Data Flow Panel (U)

Copy No. 10 of 20 copies; June 1972

STAT

As this committee is responsible to
Vince de Poix and I am lunching with the
latter next week, I could raise this matter.
On the other hand, nothing short of putting
it on paper is likely to have any effect. So,
if you feel this would be worthwhile, please
draft such a letter for de Poix.

Bronson Tweedy - D/DCI/IC
